ABSTRACT

The fourteenth annual report on student characteristics as described by age group and sex at the State University of New York (SUNY) is presented. The five sections of the report are divided as follows: (1) summary tables with data for the entire system as well as each institution and institutional type; (2) system summaries of institutions by age group displaying headcount and percentage arrays of students by age group for each institution and institution type; (3) trends in distribution by age group and sex, 1981-87, age groups of under 19, 20-24, 25-34, and 35 and over; (4) trends in distribution by age group and sex, indexed to fall 1981, age groups of under age 25 and 25 and over; and (5) trends in annual change displaying change and percent of change in the age and sex trends by level and load from fall 1982. Appended is a map locating the SUNY institutions, chronology of their dates of establishment, and a publications list. (SM)

INTRODUCTION

This is the fourteenth annual report on student characteristics as described by age group and sex published by the Central Staff Office of Institutional Research. This years report differs from the earlier publications, in that, the age groupings have been changed to reflect those being used in the age component of the U.S. Department of Education's annual surveys of postsecondary education (IPEDS). As the result of these age group changes we have had to modify many of the reports, with the most significant modifications being made to the trend reports. The particular age groups being used on the trend reports (pages 213 to 242) were determined by the degree of overlap between the current age groups and those previously used by our office to collect the information. Eventually, we will be able to resume showing more detail on the trend tables, but not until we have collected enough history to show a significant span of time (at least 5 years). Another change to the trend reports is a reduction in the number of years actually displayed on the reports. The time period covered (7 years) is the same as that used in the earlier publications, but currently we show alternate years rather than every year during this period.

The major tables included in this report array four fundamental student characteristics:

Age Group
Sex
Level (Undergraduate/Graduate)
Load (Full-time/Part-time)

The main body of this report is divided into five sections:

Part I (Pages 1 - 166) - contains data for the entire system, as well as, each institution and institutional type. For each of the headcount tables in this section there is a corresponding table providing percent distribution arrays of the headcount data. Each institution or institution type is displayed on one page for all components.

Part II (Pages 167 - 212) - displays headcount and percentage arrays of students by age group for each institution and institution type. Tables are available for undergraduates, graduates and first-time students by load. Multiple institutions are displayed on a single page for a given component.

Part III (Pages 213 - 242) - summarized historical trend data on all students from Fall 1981 through Fall 1987. The trend reports are grouped into sections by level (undergraduate/graduate). Each level has both headcount and percentage distributions for total, full-time and part-time students. The age and sex trend tables are not available for individual institutions, but are available for all standard institutional clusters.

Part IV (Pages 243 - 275) displays age and sex trend by level and load indexed to Fall 1981. The data for this and the following section is divided into two age groups; those under 25, and 25 and over.

Part V (Pages 276 - 305) displays change and percent of change in the age and sex trends by level and load from Fall 1982.

Part VI of the report contains a map locating the institutions of the State University, Chronology of Dates of Establishment of Institutions of the State University of New York and a list of this office's publications.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this data required their extensive cooperation and continued effort. Our gratitude is also extended to this office's statistical staff of Mr. Spoor and Mrs. Wendover who were responsible for editing and verifying the data; the typing staff of Mrs. Mazzone and Ms. Lavery who prepared the final typescript and were responsible for the proper distribution of the publication.
